The oath or declaration is defective because it does not identify the parent applications for which benefit is being claimed under 35 U.S.C. § 120 (see page 1, lines 2-6 of the specification) in the section which includes the statement that the person making the oath or declaration in a continuation-in-part application filed under the conditions specified in 35 U.S.C. § 120 which discloses and claims subject matter in addition to that disclosed in the prior copending application, acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56 which occurred between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 14 and 15 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant

Art Unit: 1724

regards as the invention. The recitations that the nanocrystals, activated carbon and polymeric binder "were mixed" (claim 14, lines 1-2), and that the weight ratio of nanocrystals to polymeric binder "ranged" between certain ratios (claim 14, line 3; claim 15, line 2) are vague, and indefinite as to the current product limitations intended.

Claims 1, 3-13 and 16 are allowed. Claims 14 and 15 would also be allowed if rewritten or amended to overcome the above rejection under 35 U.S.C. § 112.
